

## EXPERIENCE

---

- **THE HEADSTRTER** - *FELLOW SOFTWARE ENGINEER, Remote* *July 2024 - Present*
  - Collaborated with a startup to clear their backlogs
  - Collaborated with the team for the hackathon competition
  
- **IRON AND WOOD DESIGNS** - *DATABASE DEVELOPER, Austin, TX* *June 2023- August 2023*
  - Designed and developed a fully functional Oracle database from the ground up, ensuring optimal performance and scalability.
  - Conducted thorough requirements analysis to align database design with business needs and objectives.
  - Implemented advanced database features including triggers, stored procedures, and indexing to enhance functionality and efficiency
  
- **NOVEON MAGNETICS INC.** - *CHEMISTRY INTERN, Austin, TX* *Nov 2017 – Jan 2018*
  - Conducted in-depth research on recycled magnets for a bachelor's degree diploma project.
  - Executed necessary measurements for magnet property database, including chemical composition, remanence, and permeability.
  - Utilized Ion Coupled Plasma (ICP) spectroscopy, fluxmeter, and various other devices to perform accurate measurements.
  - Analyzed and interpreted data to support research findings.
  - Maintained meticulous records of all research activities and results.
  - Collaborated with faculty members and peers to ensure the accuracy and relevance of research.

## EDUCATION

---

- Austin Community College**, Software Development Bachelor of Applied Science *Sep 2021 - Current*  
**The University of Maribor, Faculty for Chemistry and Chemical Engineering**, Bachelor's in Chemistry *Sepr 2018 – Current*

## SKILLS

---

**Technical:** Python, SQL, PL/SQL, Java, Bash, Microsoft Excel, Microsoft Word, LibreOffice  
**Creative:** Teamwork, Writing
